One - Day Dual Language University Training

Hosted by Zapata CISD, Zapata, Tx

January 30, 2026

8:30-3:30

Dual Language Model Immersion Experience: A Day in the Life of a DL Student

This dynamic and immersive training is designed to simulate a typical day in a dual language classroom—**with educators stepping into the role of students**. Throughout the session, participants will be taught **middle school-level Math, Science, Social Studies, and Language Arts lessons** delivered through the **Dual Language Lesson Plan Cycle**, allowing them to experience instruction as their students do.

By engaging in content-rich lessons that incorporate authentic **dual language best practices**, participants gain a powerful, firsthand understanding of the instructional strategies, linguistic scaffolds, and classroom structures that drive student success in dual language settings. Experiencing the model from the learner's perspective provides invaluable insights that cannot be captured through observation alone.

This training is ideal for teachers and instructional leaders seeking to deepen their understanding of effective dual language implementation. Participants will return to their classrooms with enhanced clarity, renewed confidence, and the practical know-how to implement their district's Dual Language Model with greater fidelity and impact.
