One - Day Bilingual Research Centers (BRCs) Training

Hosted by Northwest ISD, Northwest, Tx

January 20, 2027

8:30-3:00

In this engaging **one-day training**, participants will gain an in-depth understanding of the design, intent, and instructional purpose of Bilingual Research Centers (BRCs) within the Dual Language Enrichment Model.

These centers are a cornerstone of biliteracy development and academic rigor, designed to promote higher-order thinking, independent inquiry, and cross-linguistic transfer among bilingual students.

Educators will explore how BRCs align with content standards, support dual language goals, and enhance student engagement through authentic research tasks in both languages of instruction. Participants will not only analyze model examples and guiding principles, but they will also experience a fully functioning Bilingual Research Center first-hand during the session.
